# INTRODUCTION

The Government of Canada, through the Canada Student Loans Program (CSLP), provides Canada Student Loans and Grants to eligible Canadians who are attending college, university or trade school. Canada Student Loans and Grants are available across Canada with the exception of Quebec, Nunavut and the Northwest Territories, which operate their own student financial assistance programs.

Since its introduction in 1964, the Canada Student Loans Program has provided close to \$41 billion in student loans to more than 4.8 million students. Since 1995 the CSLP has also provided approximately 1.9 million non-repayable grants to students, totaling over \$3 billion.

The following tables provide information on the Canada Student Loans Program as of July 31, 2012. Follow the links below for more detailed statistics.

Note:

1. The number and value of transition grants in 2010-11 have decreased from the previous year as the grants will phase out in 2012-13.

2. The number and value of Millennium Excellence Awards for the 2009-10 academic year is only for part of the year. It represents only those disbursed by HRSDC after January 2010.

3. A student may receive more than one grant, so the total number of grants is greater than the total number of unique grant recipients.
